25X1	Called Ed Braswell, Chief Counsel, Senate Armed Services Committee, regarding followup items from yesterday's briefing by the Director. Braswell said he saw no need to formulate additional questions for us to respond to "for the record" so we could drop this item. He said he would however provide us with a written statement of the Chairman's question regarding Communist Bloc mobilization potential in event of a confrontation with NATO forces.		
25X1	Confirmed for Bill Woodruff, Counsel, Senate Appropriations Committee, the Director's availability for a briefing of the Senate Appropriations Defense Subcommittee at 9:30 a.m. on Thursday, 18 March for a world wrapup briefing. Woodruff said he planned to discuss this with Chairman Ellender and would be back in touch with us.		
25X1	Richard Kimmel, on the Joint Committee on Atomic Energy staff, called with reference to the Director's testimony before the JCAE on 24 February. Captain Bauser is specifically interested in Senator Baker's question about Japanese advanced converter technology. I told Kimmel our people had prepared an unclassified statement on this which we planned to insert in the corrected copy of the transcript when it comes back to the Committee. I added, however, that we could provide this item separately if Captain Bauser desired it. Kimmell said he would let me know if that is the case.		
25X1	Pursuant to arrangements made between Mr. Maury and Dorothy Fosdick, of Senator Jackson's Subcommittee on National Security and International Operations, I met with Miss Fosdick and showed her copies of the Director's prepared statement before the full Armed Services Committee on Thursday and Mr. Maury's notes on		

questions and answers at that session.
